

Instructor checklist — Week 8, Day 1

Before class

- ☐ Projector + slides `docs/slides/week-08-day-01.html`
- ☐ Print or share lab sheet + handout
- ☐ Starter builds: `cd docs/week-08-day-01/starter/backend && go run ./cmd/server`
- ☐ Week 7 sample repo ready if someone lost their code

During

- ☐ Spot-check create/list in first 10 minutes
- ☐ Live nil panic → fix (do not skip)
- ☐ Extract repo on projector; leave layout slide up
- ☐ Cut escape `-m` / make vs new if lab needs time

After

- ☐ Collect PR URLs
- ☐ Check: no `gin` in `repository`; no map fields on handler
- ☐ Accept notebook photos for memory diagrams
