Epic Learn — Go Programming Master Course — Week 7, Day 1

Bring a **green Week 6 handlers refactor**.

1. `GET /health` and `GET /api/hello` on `:8080` must work.
2. Postman collection ready — we will add student requests.
3. Today: **structs + in-memory students** (create + list). No Postgres. No JWT.

See you at [DATE] [TIME] [ROOM].
