Homework — Week 12, Day 1

Due: _____ · **GitHub PR**

Already done in lab

- Race lab: red → mutex → green
- Understood Mutex vs WaitGroup

Required

1. Document in README:

```
bash go test -race ./...
```

1. SMS (or your fork): shared maps locked; repository methods take `context.Context` (may ignore body until week 14); handlers pass `c.Request.Context()`.
2. PR description: what `-race` reported, what you changed.

Marking

Check	Pass
README has `-race`	
Shared state locked	
Context on repo + handlers	
PR explanation
