

Instructor checklist — Week 6, Day 1

Pack

- [] Slides docs/slides/week-06-day-01.html
- [] Your own refactored handlers demo ready
- [] Lab sheets printed
- [] List who still lack week 5 health

Board

```
func Name(params) results { }

func (h *Handler) Get(c *gin.Context) // method + pointer receiver
func NewHandler() *Handler           // constructor

defer f.Close()                       // runs at function exit

go test ./internal/handlers
curl -i http://localhost:8080/health // still 200 after refactor
```

Collect

#	Student	Handlers extracted	FullName test	Health 200	PR
1					
2					
3					
4					
5					
6					
7					
8					
9					

#	Student	Handlers extracted	FullName test	Health 200	PR
10					
11					
12					
13					
14					
15					

After

- [] Homework due date messaged
- [] Spot-check 3 PRs: no logic dump in main, tests green
