Epic Learn — Go Programming Master Course — Week 6, Day 1

Bring a **green Week 5 API**.

1. GET `http://localhost:8080/health` must return 200 with `status` / `message`.
2. Postman collection from week 5 ready.
3. We will **refactor** into `internal/handlers` — not add a database.
4. Optional: re-read your week 2/3 `FullName` tests.

See you at [DATE] [TIME] [ROOM].
