

Pre-class (send 2–3 days before Week 5)

Epic Learn — Go Programming Master Course — Week 5, Day 1

Bring a **working Week 4 skeleton**.

1. `cd backend && go run ./cmd/server prints sms starting` (we will replace this with HTTP).
2. Install **Postman** (or Insomnia) on your laptop.
3. Same OS rule: Ubuntu lab or **WSL2 Ubuntu**.
4. Optional: skim [Gin Quick Start](#) — do not copy a full app yet.

Today: `net/http hello` → `Gin` → `GET /health` + `GET /api/hello` on `:8080`. No database. No JWT.

See you at [DATE] [TIME] [ROOM].
