

Week 1, Day 1 — full kit

Everything needed to teach and sit Day 1. **No SMS code today.**

Print these (PDFs): [pdf/](#) — every page has the Epic Learn logo header and the footer *Epic Learn Institute of Higher Education - Go Programming Master Course.*

PDF	Use
week-01-day-01-slides.pdf	Projector / student copy of the deck
week-01-day-01-slides.pptx	Same deck for PowerPoint
student-handout.pdf	Give every student
lab-sheet.pdf	Gate before they leave
week-01-day-01-notes.pdf	Your script
install.pdf	Ubuntu / WSL / macOS
troubleshooting.pdf	Walk the room
homework.pdf · why-go.template.pdf	After class
pre-class.pdf	Send 2–3 days before
instructor-checklist.pdf	Packing + URL sheet
COURSE.pdf	Full 16-week curriculum
sms-project-spec.pdf	SMS capstone spec

Regenerate: `python3 docs/week-01-day-01/generate-pdfs.py` (needs Google Chrome).

Who	Open / print
Instructor presenting	../slides/week-01-day-01.html (F fullscreen, N notes, P PDF)
Instructor script	../slides/week-01-day-01-notes.md
Instructor packing + URL sheet	instructor-checklist.md
Night before	pre-class.md
Students (print 2 pages)	student-handout.html

Who	Open / print
Students lab gate	lab-sheet.html
Install by OS	install.md
When something breaks	troubleshooting.md
Homework	homework.md · template why-go.template.md
Reference only (after they type it)	starter/hello.go · starter/.gitignore
VS Code JSON	vscode-settings.json

Gate: nobody leaves without `go version` → 1.25.x and a GitHub URL that contains `hello.go`.
