

## Lab gate — Week 3, Day 1

Fill this and show it with your GitHub page before you leave. Name: \_\_\_\_\_

**You are done only when every box is ticked.**

- ☐ Worksheet sections A–D filled (control, gotcha, comma-ok, paper table)
- ☐ Paper test table for Contains written *before* coding
- ☐ `go test` green for Contains
- ☐ `go test` green for Unique (order preserved)
- ☐ `go test` green for Freq (comma-ok assertions)
- ☐ I explained the backing-array gotcha to the instructor in one sentence
- ☐ GitHub has the week 3 files, **not** compiled binaries

### GitHub URL

`https://github.com/yourname/...` (week03 visible)

### Paste `go test` output

PASS

### Instructor sign-off

| Seen worksheet + table + URL + PASS | Initials | Time |
|-------------------------------------|----------|------|
|                                     |          |      |

Homework still due before next class: `exercises.md` + hardened `slice` tests.
