

Lab gate — Week 8

Name: _____ · Pair: _____

1. Nil crash

- ☐ Deliberate nil *StudentHandler panic seen
- ☐ Fixed with NewStudentHandler(repo)

2. Extract repository

- ☐ internal/repository/student_repository.go exists
- ☐ Map + mutex live only in the repo
- ☐ Handler struct has repo *StudentRepository (no map fields)
- ☐ repository package does not import gin

3. Still green

- ☐ POST create → 201
- ☐ GET list shows student
- ☐ GET :id / 404
- ☐ GET /health → 200

Smoke

```
curl -s -X POST localhost:8080/api/students -H 'Content-Type: application/json' \
  -d '{"first_name":"Ada","last_name":"Lovelace","email":"ada@example.com","course":"SE"}'
curl -s localhost:8080/api/students
curl -s localhost:8080/health
```
