

Week 2, Day 1 — full kit

Everything needed to teach and sit Week 2. **No SMS code today.** Types, zero values, operators, strings, and the first `go test`.

Print these (PDFs): [pdf/](#) — every page has the Epic Learn logo header and the footer *Epic Learn Institute of Higher Education - Go Programming Master Course*.

PDF	Use
week-02-day-01-slides.pdf	Projector / student copy of the deck
week-02-day-01-slides.pptx	Editable PowerPoint (text boxes + logo). Rebuild: <code>python3 docs/week-02-day-01/build_editable_pptx.py</code>
student-handout.pdf	Give every student
lab-sheet.pdf	Gate before they leave
worksheet.pdf	Zero values + conversions (fill in class)
week-02-day-01-notes.pdf	Your script
troubleshooting.pdf	Walk the room
homework.pdf	After class — 10 exercises + <code>FullName</code> tests
pre-class.pdf	Send 2–3 days before
instructor-checklist.pdf	Packing + URL sheet

Regenerate: `python3 docs/week-02-day-01/generate-pdfs.py` (needs Google Chrome).

Who	Open / print
Instructor presenting	../slides/week-02-day-01.html (F fullscreen, N notes, P PDF)
Instructor script	../slides/week-02-day-01-notes.md
Instructor packing + URL sheet	instructor-checklist.md
Night before	pre-class.md

Who	Open / print
Students (print)	student-handout.html
Students lab gate	lab-sheet.html
Students fill-in	worksheet.md
When something breaks	troubleshooting.md
Homework	homework.md
Reference only (after they type it)	starter/

Gate: nobody leaves without a filled worksheet, `greet` printing a full name, and green `go test` ON `FullName` .
